

TECHNICAL SPECIFICATIONS

FOR THE AVANT PREMIÈRE SCREENINGS 2023

Please note: Your screening material must have been received by filter Media

before or on January 27 2023 latest!

GENERAL PRESENTATION FORMAT

All Avant Première Screenings will be presented file based in Full HD 1080 at 25 frames progressive scan with stereo audio in 24 Bit / 48 kHz mixed according EBU R-128 or ITU BS1770-2.

Please check your material to match the general presentation format and presentation time. If your material does not comply to the specifications or runtime you can re-submit your material accordingly. Alternatively, it can get adapted / truncated. This will induce additional costs not carried for by the IMZ or its partners: you will receive a separate bill for these adaptations.

VIDEO:

File based only, embedded audio (stereo),

Full HD (1080p25) (progressive, 25fps), SDR (REC.709) in

- Apple ProRes 422 (HQ)
- Avid DNxHD 185X or Avid DNxHQP as MXF OP1a

No leader (color bars/countdown/plates etc.), not tail: only the to be presented material. File based material can be received via hard drive or feel free to make it available for download via internet. Please email the download details to avantpremiere@filter-media.net

SD-formats and all other delivery means like Tape- or disc-based are deprecated.

AUDIO:

On any of the deliverables for video stated above audio should be 24 Bit / 48 kHz, stereo, mixed according EBU R128 or ITU BS1770-2 respectively and embedded in the delivered file.

Please note! Presentation will be in **stereo** only, please do not deliver more than two audio tracks (no 5.1 DolbyE audio).

In case of any questions regarding the technical aspects of the delivery please contact filter Media at avantpremiere@filter-media.net before sending the file.

SUBTITLES / LOWER THIRDS:

Please note! Due to the layout of the presentation hall subtitles and lower thirds are sometimes hard to be seen from all places in the hall:

We encourage you to adapt the position of titles, inserts and subtitles and shift them upwards or position the subtitles at the upper end of the action safe area.
